

NUTRITION & GASTRONOMY: THE NUTRISENS GROUP & THE PAUL BOCUSE FOUNDATION POOL THEIR EXPERTISE!

Nutrisens is a European multi-specialist in pathologies committed to developing nutrition solutions. The Paul Bocuse Foundation, created in 2004, was the first corporate foundation in the Auvergne Rhône Alpes region with the objective to pass on culinary heritage to younger generations. They are now pooling their expertise with **Nutrition and Gastronomy**.

Nutrisens, a mission-driven company since January 2024, offers personalised and specific nutrition solutions adapted to every unique patient's need and all types of pathologies.

The Nutrisens teams are convinced of the vital role nutrition plays in all our lives. Appropriate and specific nutrition is a crucial contribution to healing, recovery and well-being. Nutrisens never stops creating – recipes, tastes, textures, advice, services, and exploring knowledge on pathologies – to ensure a full panel of tempting and delicious nutrition.

Paul Bocuse was a firm believer in the need for culinary professions to pass their expertise down through the generations. In 2004, he created the Paul Bocuse Foundation with his family. The Foundation runs a range of programmes to support over 1,000 young people in France and Benelux each year. Their goal is to give participants a hands-on opportunity to discover fascinating professions in a dynamic industry where recruitment is thriving and hopefully inspire passion for the job in them.

The Foundation is supported by the Maisons Bocuse, custodians of an exceptional culinary heritage entrusted to them by Paul Bocuse. The highly skilled teams in the Group's various establishments serve cuisine consistent with values promoted by Monsieur Paul, respecting the DNA of his signature: Bocuse.

NUTRITION & GASTRONOMY : A MEANINGFUL ALLIANCE

Pooling expertise in Nutrition and Gastronomy through this alliance between the Paul Bocuse Foundation and Nutrisens offers exciting new opportunities. They have joined forces to focus on **three strategic areas**:

Combining the Paul Bocuse Foundation's knowledge and expertise with Nutrisens' specialisation in nutrition to provide training for employees. The aim is to create a synergy to benefit both patients and the public supported by the Foundation.

Working together in R&D and innovation to imagine and design cuisine combining flavour, nutritional quality and health.

Mobilising our shared expertise in meal solutions, particularly for senior citizens at home; to provide our elderly customers with flavoursome solutions adapted to their nutritional needs with pleasure.

Nutrisens is pleased to announce that Paul Maurice Morel, President of the Paul Bocuse Foundation and CEO of Restaurants & Brasseries Bocuse, has joined their mission-driven committee. With his expertise in the world of gastronomy and as the guarantor of the Bocuse signature alongside Jérôme Bocuse, Mr Morel will make a valuable contribution to Nutrisens' purpose.

At the same time, Georges Devesa, Chairman of Nutrisens, joined the Paul Bocuse Foundation. His commitment to innovation and quality food echoes the values and missions of the Foundation for the benefit of future generations.

LEADERS OFFERING THE BENEFIT OF THEIR EXPERIENCE

Georges DEVESA
Chairman of Nutrisens

“Pooling our expertise in Nutrition and Gastronomy opens up new opportunities for innovation. It’s also an opportunity to train cooks in customer healthcare establishments with the advantage of the skills and expertise of the Paul Bocuse Foundation. This alliance illustrates and contributes to Nutrisens’ purpose as a mission-driven company: Improving life for vulnerable people with the most appropriate nutritional solutions.”

Paul-Maurice MOREL
Chairman of the Paul
Bocuse Foundation CEO
Maisons Bocuse

“Health through food is a priority for the future which is one of our key concerns, particularly at the Foundation. The collaboration between our two Lyon-based organisations with common values will contribute to greater understanding of nutrition in gastronomy. We will draw on Nutrisens’ expertise in nutrition and add our culinary skills and expertise to enhance flavours.”
